

# NITRODOSE<sup>®</sup> G3 and G3 Pro

## Introducing the latest advancements in liquid nitrogen dosing

### Liquid Nitrogen Dosing System

Advanced liquid nitrogen dosing performance and durability with powerful control systems precisely delivering low pressure liquid nitrogen at line speeds up to 2000 CPM.

Features standard to both models:

- Multiple on-board language and recipe storage
- Self-monitored with alarm outputs
- Smartsync technology
- Remote dosing initiation
- Speed and dose compensation
- Self-generating N<sub>2</sub> purge
- Remote activated warm-up feature initiate through HMI
- Optional automatic CIP protection
- Optional independent overflow detection
